IT IS FRETTY SAFE to say that the coming chief signal officer to succeed Gen. Myer is either Gen. Miles or Gen. Hazen.

COL. BENJAMIN, Assistant Adjutant General, will leave to-morrow night for New York, where he will spend two or three weeks before leavin; for his post at Prescott, department of Arizona, to which he has been recently ordered.

CAUTIONARY SIGNALS. - Gen. Drum. acting chief signal officer, has authorized the display of cautionary signals at Fort Monroe, Va., and Manistee, Michigan.

THE NEW DANISH MINISTER to the United States, Carl Steen-Anderson Bille, is a journalist, and edited for some years the leading liberal newspaper of Denmark. He left his newspaper to go into parliament in 1872, and his appointment as minister to the United States, quite outside the strict rule of diplomatic promotion which prevails in that kingdom, is quite a compliment. He is familiar with the question of cattle exportation to England, which is of importance to American as well as to Danish far-

PRELIMINARY PRACTICE FOR THE NAVAL RE-VIRW .- Rear Admiral Wyman, commanding the North Atlantic fleet, is keeping the officers and the crews of the vessels now in Hampton Roads fully occupied and getting them in readiness for the naval review. Tuesday night at hairpast eleven o'clock a gun was fired from the flagship Tennessee, which is the signal for all hands on deck. The Constitution was the first to respond, the Portsmouth next, followed in quick successsion by the other six vessels of the fleet, while the crews came tumbling on deck as if a second confederate Merrimac had got loose among them. Yesterday afternoon the crews were all mustered for a drill, which took place in the fort. The marines, some 300 strong, under command of Capt. Webster, were brought ashore in steam launches, together with the band of the Tennessee, and landed on the wharf, leading the procession. The sailors and boys, some 1,200 in number, followed in rowboats, bringing with them a dozen howitzers and Gatling guns. There were some 50 large rowbeats in the line, which was formed some distance from the shore, and at a signal they all advance with a rush, as if charging an enemy's works. On landing the brigade was formed, with Capt. S. B. Luce. of the Minnesota. in command, and marched into the fort, where an hour was spent in company and battalion

NAVAL ORDERS .- Ensign Henry Morrill, for examination for promotion; Pay Inspector Rufus Parks, to the Pensacola and as fleet paymaster of the Pacific station, relieving Pay Inspector Casper Schenck, who is ordered home to settle accounts; Passed Assistant Engineer J. P. Kelly, to the New York navy yard; Master F. H. Crosby, from the Franklin, and ordered to the Despatch; Paymaster A. D. Bache, from the Michigan, November 1st, and ordered to settle accounts.

ARMY ORDRES .- 1st Lieut. W. H. Low, jr. 20th infantry, will proceed to join his proper station. The order directing 1st Lieut. G. C. Doane, 2d cavalry, on the expiration of his present leave of absence, to report in person to the adjutant general of the army in this city, is amended to direct him to report by letter to the adjutant general. Leave granted 1st Lieut. S. K. Mahon, 16th infantry, is still further extended one year an occount of sickness.

SONS OF ARMY OFFICERS AS MILITARY CA-DETS.-It turns out that the statement that Judge Advocate General Dunn has rendered a decision to the effect that no sons of army officers can be admitted to West Point," and that "army officers cannot acquire a bona fide residence as required by law," (as a basis for ap pointment to the military academy) is errone ous. He has simply given an opinion upon a specific case referred to him, that no "mere constructive residence" will answer the require ment of section 1315 of the Revised Statutes which provides that all West Point cadet ap pointees except the ten appointed at large by the President, "shall be actual residents of the congressional or territorial districts, or of the District of Columbia, respectively, from which

they purport to be appointed." TARIFF REVISION .- Senator Wallace, chairman of the democratic congressional commitee, has telegraphed instructions here to have printed and circulated the numerous petitions which were presented at the last session of Congress, signed by manufacturers all over the country, praying for the passage of the Eaton bill providing for the appointment of a commission to take into consideration the subject of tariff revision.

REPUBLICAN POSSIBILITIES IN NORTH CARO-LINA .- Cashier Whelpley, of the Treasury, returned to the city to-day from North Carolina, where he went two weeks ago in company with one of the officials of the Second Controller's office to look up some lands belonging to the government. From what he heard and saw in the state Mr. Whelpley thinks there is a very good chance of the republicans carrying the state in November.

PERSONAL -- Ex-Secretary Bristow is at the R ggs:-P. T. Barnum is a candidate for the state senate in Conecticut. He is believed to have a good show .- Capt. J. S. Bradford, of the U.S. coast and geodetic survey, and family, have returned to the city for the season, and are at their residence on H street.—Associate Justice Field, Capt. H. W. Howgate and Stilson Hutchins, of Washington, were registered in New York last evening.—C. P. Huntington, of New York, is at Willard's.—Hon. George Ban-croft, the historian, will leave Newport for Washington to-morrow or next day. -- Dr. Tanner proposes a forty-day's competitive fast n London, with believers in malt and spiritous lquors, he to use water alone and they to subsist on their own chosen beverage, and see what the result will be.

Truth, the new democratic paper in New York, demands the withdrawal of Mr. Grace as the candidate of that party for mayor of the city because, as it alleges, his running will cost the democracy of that state from 20,000 to 30,000

Gen. Grant unexpectedly appeared at a re-

publican meeting in Cooper Institute, New York, last evening, and was greeted with great enthusiasm. A voice cried out, "1884," and the applause was dearening. Two hundred and fifty colored men from Cleveland, Ohio, visited Gen. Garfield at Me tor yesterday, and he made them a speech, in respone to their address, dwelling on the results

of the war and the record of the republic n party in that connection. The letter that appeared yesterday in a New York paper styled Truth, purporting to be written by Gen. Garfield, upon the Chinese question, and which he, yesterday, characterized as "a stupid forgery," is as follows:

[Personal and Confidential.] HOUSE OF REPRESENTATIVES, Washington. D. C., Jan. 23, 1880. Dear Sir: Yours in relation to the Chinese problem came duly to hand. I take it that the question of employés is only a question of private and corporate economy, and individuals or companies have the right to buy labor where they can get it the cheapest. We have a treaty with the Chinese government which should be religiously kept until its provisions are abrogated by the action of the general government, and I am not prepared to say that it should be abrogated until our great manufacturing interests are conserved in the matter of labor.

Very truly yours, WASHINGTON. D. C., Jan. 23, 1880.

The Coming Session.

THE BUSINESS BEFORE CONGRESS. The next session of Congress, it is hardly expected, will do much more in the shape of legislation than pass the regular appropriation bills. This, for the reason that it will have but little time to do anything else. In the first or long session of a Congress it is generally near the approach of dog days before the last of the appropriation bills are passed. The present Congress expires on the 4th of March next and between its meeting on the 1st Monday in Decembe. next and March 4th, in addition to passing the necessary money bills, the electoral vote is also to be counted. The great prominence given to

THE TARIFF QUESTION in the impending presidential campaign make it highly probable that the question will be serious one with Congress. The probable outcome will be that the Eaton bill, providing for commission to inquire into the subject o tariff revision, will be passed. It is expected too, that the pressure will again be revived by the newspaper publishers against the pulp mo-nopoly. This will afford something like a test vote between the parties on the question of free trade or protection. One very important matter Congress will have to meet at once is to prescribe some regulations for the

COUNTING OF THE ELECTORAL VOTE. Since the abolition of joint rule No. 22, there has been no prescribed rule for the guidance of the two houses in joint convention. In 1876 the matter was very seriously discussed, the republicans holding that the President of the Senate had the right to count the vote. The democrats of the House insisted that it was the duty of that body. The agitation of the ques tion caused a good deal of feeling, which was allayed, however, by the passage of the bill creating the electoral commission. If the pending election should happen to be at all close, the excitement would, without doubt, be renewed in intense form, and the manner in which the vote should be counted would again be the up permost question confronting Congress.

THE NEW DISTRICT CODE. The most important matter of interest to th District pending in Congress is the new code of municipal regulations which has passed the House and is now on the Senate record. During the recess the members of the Senate Distric committee were charged by Chairman Harris to investigate the subject, so that when they met in Becember they would be prepared to vote on agreeing or not to the House bill.

Sitting Bull's Repentance. THE SIOUX CHIEF WILLING TO SURRENDER. The following dispatches have been forwarded

to the War department: FORT BUFORD, Oct. 15, 1880. To Assistant Adjutant General, Department of Dakota, St. Paul, Minnesota: Major liges, 5th infantry, tells me he met south of the Missouri a runner from Sitting Bull's camp-the same one Miles sent out to demand Sitting Bull's surrender-who told him he brought word from Sitting Bull that he was willing to surrender; did not want the troops to move against him, but wanted a little more time, and he would then come in. He said Sitting Bull was influenced in this determination by recent advices he had received from the Queen or British. This would seem to corroborate Allison's statement.

BROTHERTON, Commanding. THE CONDITIONS ON WHICH HE WILL BE RE CEIVED.

Headquarters Department of Dakota, St. Paul, Oct. 18, 1880. }
To Major W. H. Brotherton, Fort Buford, D. T. You can send Allison out to try to bring Sitting Bull in, but if you do it you must do it as once, and with all speed. Allison can tell Sit ting Bull that his surrender at your post will be accepted; but he must be careful to offer him none but the old terms, that is to say: Submission to the government, with surrender of arms and pontes; the pontes surrendered to be sold and the proceeds to be invested in cattle for us of the Indians. The Indians themselves to go ultimately to whichever of the Sloux agencie the government may assign them. If necessary Allison can tell him that the troops will move in force against him if he does not surrender. By command of General Terry.

The Interest Bearing Debt. AN EXPLANATORY LETTER FROM THE TREASURY

From frequent inquiries made at the Treasury department it seems that an impression prevails throughout the country that money is ermitted to accumulate in the Treasury whe t might be used in the purchase of the interest bearing debt. In reply to one of these many in quiries the following explanatory letter has been sent:

TREASURY DEPARTMENT.

Washington, D. C., Oct. 20, 1880. James Smith, Esq., Olsego, Michigan: Sir: I am in receipt of your letter of the 16th inst., asking why the Treasury does not use its accumulating silver and gold to liquidate U. S tonds matured, or which may be paid at the option of the government. In reply, I have to inform you that, under the resumption act, there was accumulated a fund for the redemp t on of outstanding legal-tender notes of about \$140,060,000, being about 40 per cent of th amount of the notes outstanding redeemable on demand from that fund, and as small a sum as it was deemed prudent to hole for that purpose. In addition to this it is of course necessary to have a small bal ance from which to pay the ordinary current expenses of the government, thus mak ing the total available cash in the Treasur about \$155,000,000, though of course this amoun varies as the receipts and expenditures of the government temporarily increase or diminish. Beyond that amount, however, there has been no permanent accumulation of moneys in the Treasury. in fact, the available balance to-day is a little less than that of a year ago. All the excess of receipts over expenditures during the last year has been applied to the reduction o the interest bearing debt, of which there has been purchased with the surplus revenues in the open market \$103,771,100, on which there will be a saving in each year hereafter of 5,817,056.50 of interest. This method of pur chasing bonds in the open market was made necessary, as there have been no bonds payabl at the option of the government since the com pletion of the refunding operations, more than Very respectfully, J. K. UPTON, Assistant Secretary.

The Ute Situation Threatening. TROOPS NEEDED TO PROTECT AGENT BERRY IF HE SURRENDERS. The following dispatch received at the Da partment of Justice was to-day transmitted to

the interior department: CANTONMENT UNCOMPAHORE, NEAR LOS PINO?, Oct. 20 .- Hon. Charles Devens, Attorney Gen eral: Have arrived at military post near agency. Passed through Gunnison. Think, if arrested. Berry is in danger of being lynched on the way unless a sufficient escort is furnished by the commander at the post to protect the marshal in taking him to Pitkin for examination. Can you procure instructions to Maj. Fietcher to furnish the same. The Indians will not suffer Berry to go unless he consents. He is not at the agency now, but will probably surrender to the marshal if his safety is guaranteed by the military. The situation is threatening and a

speedy answer is desirable. Reply by telegraph to Lake City. EDWARD L. JOHNSON, U. S. Attorney.
Acting Secretary of the Interior Bell has made a request of the War department in case of the arrest or Berry to see that he is properly protected by the military until he is turned over to the civil authorities.

OUR EXPORTS OF BREADSTUFFS .- The report of the bureau of statistics shows that the exports of domestic breadstuffs for the month of September, 1880, amounted, in value, to \$23,881.936, against \$35,828,848 for the same month of 1879. For the nine months ending with September, 1880, the total value of these exports was \$268,679,542, against \$176,399,946 for the corresponding period of last year. With the exception of Baltimore the southern ports increased their exports of breadstuffs over September, 1879, while all the northern ports, like Battimore, show a falling off. New Orleans, Key West and Richmond, each nearly double its exports of September, 1879.

She was going through a field in which a Hambletonian horse was kept when in some manner she provoked the animal and it ran at her, thowing her to the ground and kicking her to death, trampling upon her body and mangling it shockingly. She was found in a dying condition. The horse is a valuable animal belonging to the young woman's father. woman's father.

PIMLICO RACES TO-DAY. NEW YORK THIS AFTERNOON. The Political Situation—Democratic

Tribulations Over the Mayoralty-Republican Tribulations About the Cabinet-What Garfield Will and Will Not Do-Democratic Business Men's Mass Meeting-The Republican City Nominations, and What the Germans Want. [Special Dispatch to The Star.] New York, Oct. 21 .- Reports from all parts

of the state at both political headquarters show great activity and enthusiasm in the pending canvass. There is, indeed, reason to believe that before election day political affairs in New York will be as warmly contested as they were in Indiana. It is regarded by the republicans as vital that this city's democration majority shall be kept down, and by democrats that it shall be increased. Upon that point the state election will probably be decided. This brings into the canvass an exciting discussion regarding the mayoralty. Mr. Grace, the democratic nominee, has developed an unfortunate bitter feeling because the Herald charged that John Kelly selected him as a devout Catholic to beat the ticket. This is largely taken advantage of by the republicans, who are trying to make this point that he will use the public donation funds to benefit the Catholic as against the Protestant institutions. The republican committee is to meet at 4 o'cleck this atternoon, to agree upon a ticket for mayor, register, recorder and judge of the supreme court. The whole discussion will depend upon the question whether they had better take a republican for mayor and face certain defeat, or nominate a democrat. A number of influential men in the convention favor the selection of a demiocrat and rather unite on George Quintard, or a German democrat so as to secure a number of democratic votes. This idea of selecting a democrat does not however gain strength, but rather weakens, and the probabilities are that Postmaster James will be hominated for mayor, Horace Russell for judge of supreme court.

Jacob Hess for register and D. G. Rollins for recorder. Two dispatches from Washington, one received yesterday and one to day, have created so much comment here that Gen. Garfield's friends feit called upon to ascertain their truth. One dispatch predicted the retention of every member of Hayes' cabinet in case of Garfield's elecion. This is pronounced almost by authority from Mentor as absolutely untrue. This authority says not a single member of the present cabinet would be retained. The question then seems to be the disposition to be made of Secre-tary Sherman. That they say will be settled by sending him to the Senate by Charles Foster's support and Foster himself going into the ab net.

The second dispatch, ingeniously worded, in-dicates that Grant, Conkling and Cameron would be the "power behind the throne" in case of Garfield's election. General Garfield's friends deny that any pledge has been made of asked by them. They say that when they called on Garfield at Mentor they only stayed half at hour and the visit was a ceremonial and social one; that no pledges were asked or given, and that while the gentlemen named will be fully appreciated for their political services, no "power behind the throne" will exist with Garfield. They say also that if Garfield is elected he will make a strong government, workin upon a policy that will be clearly defined in hiinaugural address.
It may be added that Messrs. Conkling, Cam-

eron and Grant all freely express unbounded confidence in Garfield. A monster democratic mass meeting of business men is now going on in front of the Sub-Tressury. Augustus Belmont, Abram S. Hewitt. Lieut. Gov. Dorsheimer, Erastus Corning and Orlando B. Potter are the speakers from the Treasury steps. Crowd extends away down Bread and both ways on Wall street.

A number of influential democrats-Germans-are now on their way up town to meet the republican committee for consultation about city officers. They will not insist upon a German for mayor, but will ask for a German or American democrat, and if that point is yielded they will promise their support.

NEWSPAPER TALK. The New York Papers Upon the Current Topic-Republican Canvass of New York-Their Estimated Majorities-The Prospect in Connecticut-Rumored Fusion in Indiana Between the Democrats and the Nationals. [Special Dispatch to The Star.]

NEW YORK, Oct. 21. The Herald to-day gives the "inside view" of the republican presidential canvass in the state of New York, as presented by the republican managers. The enumeration gives detailed calculations of expected republican gains and democratic losses in every county of the state. Its most obvious feature is the republican expectation of gain everywhere, but especially in the manufacturing countles of the interior. It concedes to the democrats a majority for Hancock of 68,000 in New York and Kings, but allows them only 11,000 majority eisewhere, and gives the state to the republicans at this moment by a majority of about 14,000, with expectation of a steady increase during the remaining 11 days through influences now in active operation. The Herald says the electoral votes of Connecticut are indispensable to the success of the democratic ticket, but that it is difficult to see on what ground the democratic party can expect to carry that state, "especially since the introduction of the tariff into the canvass, and the muddle Gen. Hancock has made of it." The Sun says there is no knowing what may be the result of the thorough shaking up of th. democracy for a few days past, in which it (the Sun) has taken a hand, and that there is now great reason to feel encouraged that Hancock may be elected. The Indianapolis correspondent of the Times reports rumors of fusion in Indiana between the national greenback-labor men and the democrats. Mysterious prepara-tions for a surprise are said to be on foot, and it is reported that the democrats are ready to make great concessions in order to secure greenback support for a joint electoral ticket. The Tribune continues to urge vigilance and ac tivity upon the republicans.

ARCTIC MYSTERIES. Sir George Henry Richards on the Schwatka Expedition. New York, Oct. 21.—A London special says: Vice Admiral Sir George Henry Richards writes a two column review of the Schwatka expelition in the Times this morning in which he discredits the idea of cannibalism. He does not think any records would be in existence after they had been exposed to a thaw of thirty summers. He believes that Lieut. Schwatke's search in this respect should be considered fina'. He also discredits the theory that bad food caused the death of Franklin's party.

NEWARK, N. J., Oct. 21.—Wm. Burnet Kinney, senior proprietor of the Newark Daily Advertiser, died in New York city early this mornin; aged S1 years. He was of New Jersey revolutionary ancestors, and was born in Morris county. After studying law in 1820 he became editor of the New Jersey Eagle, a weekly pape, and about 1835 editor of the Advertiser and proprietor soon after. In 1843 he was an unsucprietor soon after. In 1843 he was an unsuccessful whig candidate for Congress. In 1851 be was appointed minister to Sardinia, and after was appointed minister to Sardinia, and after serving his full term retired to Florence, where he lived until 1865, since which time he has resided in and about Newark. He was twice married, his second wife, who survives him, being a sister of Wm. E. Dodge, of New York.

Lammens had been on e convicted, with Mrs. Melerhoffer, on a joint indictment, but secured a new trial, on the ground of new evidence, with the above result, SOUTH AMERICAN NEWS.

TWO CENTS.

Basis for the Preliminaries of Peace Panama, Oct. 12.—Lima dates to Sept. 15th and Valparaiso to the 11th of September. Of the threatened march on Lima nothing later or more definite is known. The Chilians had not committed any further depredations in the northern departments of Peru since their late visit to Supe and Paytil, at which places they destroyed and carried off considerable property. They were, however, at last advices expected to land at the important point of Pacasmayo, whence they may invade the fertile Chicama valley, in which are a large number of valuable valley, in which are a large number of valuable sugar properties. From Chili nothing definite is given of the peace mission of United States Minister Christiancy from Lima to Santiago. The Santiago correspondent of the Mercurio states that the Honorable Mr. Christiancy has carried back the following basis for the preliminaries of a peace: "To: three belligerent republics will each elect thre commissioners to confer and discuss the coditions of peace, to meet in some part of the Peruvian territory occupied by the Chilian army; the United States minister to Peru and Chili taking part in the conference as friendly mediator." It is said that the Chilian commisslopers will be Senor Domingo Santa Maria, Senor Manuel Jose Iranazaba and Senor Vincent Reyes or Senor Ambrosio Montt. The name of Senor Jorghunand is also mentioned as

likely to take the place of Senor Reys or Montt. The Chilian Congress. The Chilian Congress is still in session, and is yet discussing the tax of two silver dollars on every metric foot quintal of nitrate that is exported. Having been approved by the Chamber of Deputies it is at present being discussed by the Senate. The commission appointed by this chamter to emit its opinion on the subject approves the project of the Chamber of Deputies, but reducing the tax to one dollar and fire cents. The bill abolishing the monopoly (Etarco) of tobacco has been passed, and its cuitivation is now free in the country. Great Britain Collecting Her Debt from Colombia. The Colombian government is greatly in ar rears in the payment of interest on its foreign debt, chiefly it not wholly held in England. The British bondholders some years ago, with a view to aiding Colombia in its financial difficul ties, and to, at the same time, securing them selves, compromised with the government by reducing both debt and interest and taking se curity for both. Among other securities pledged was the subvention from the Panama railroad to Colombia of \$250,000 American gold per annum. Under the new arrangement the interes was pretty promptly met till about cighteen up, and by the last mail the British consul in this city received orders to embargo the future subvention from the Panama railroad to Colombia, which he officially did a few days ago. This action of the British, although perfectly just, will cause great excitement throughout Colombia and may seriously embarrass for a time the present administration, but it will eventuate in the bondholder being in future more promptly paid It may here be noted that the foreign debt of Colombia after the late compromise amounts to about \$11,000,000 bearing 4 per cent interest per arnum. Of the \$250,000 paid Colombia railroad the state of Panama receives \$25,000. This amount has already been hypothecated by the state government for a year and a-half ahead to Panama merchants, who advanced the sum on the security at large interest, and who are likely to have to wait for their money a long day before being able to realize on their invest-

A Ploody Affray-Three Men Mor-tally Wounded. LOUISVILLE, KY., Oct. 21.-A special dispatch from Foint Lick to the Courier-Journal says: On Saturday night last, about two miles from Big Hill, Jackson county, near a still-house owned by James Abrams, a fight occurred between Abrams, his sons and other parties on one side and William and James Ratcliffe on the other. James Ratcliffe was shot in the face and instantly killed. His brother William was shot in the side and mortally wounded. One of Abrams sons was struck on the head with a rock, and it is said will die from the effects of the wound. .The affair resulted from an old

THE WESTERN RAILROAD WAR. Keeping up the Fight.

CHICAGO, Oct. 21 .- The railroad war lose nothing in activity. The Wabash made a 5 cent rate to St. Louis yesterday, which neither the Illinois Central or Alton roads would meet At this rate the Wabash must pay at least 50 cents (bridge toll) for each passenger it secures. The announcement of the Alton road that is would give cheap rates from Kansas city and St. Louis to the principal cities of the east seems to have caused something of a panic among the Wabash officials for they have utterly refused to meet the reduction. Alton rate is on the basis of \$18.25 from St. Louis or Kansas city to New York. The previous rate has been \$26.50. Among other cities which are benefitted by the Alton's reduction are Poston, Baltimore, Philadelphia, Columbus, Wheeling. Crestline, Dayton, Louisville, Washington, Buffalo and Detroit. The New York meeting of presidents telegraphed yesterday to discontinue the sale of unlimited tickets, but this had been already done. The Alton road, which seems to be fore ing the fight which was forced upon it, claim that it can continue its present gait indefinitely, as its business has increased so largely that it loses little or nothing, and that two eastern lines have offered to pro rate with them in their cut to eastern cities. If this should be accepted and the cutting east go on it is diffi-cult to see how other eastern roads could keep out of the fight. It is understood that the Wabash is ready to declare a truce on any reasonable basis, and whenever such intention is announced the fight will probably stop.

The Fire Underwriters' Convention New York, Oct. 21.—The convention of fire underwriters resumed its session this morning. Resolutions condemnatory of deposit loans were referred to the committee on business. Mr. P. Stevens offered resolutions providing for a committee to confer with logislators with a view to mittee to confer with legislators with a view to a settlement, whereby over insurance may be progated. Mr. Stevens thought that it was the interest of the convention to co-operate with legislators to secure necessary laws for the pre-vention of what he considered a cause of incendiarism. Referred to committee on business. Geo. P. Oakley, chairman of the committee on organization, proposed a constitution which was discussed article by article.

acceptance by him of the republic. The Duke, in his speech, said that in America, where he passed a part of his youth, it was customary to give such a loyal toast before all others. Speech of the King of Greece. ATHENS, GREECE, Oct. 21.—The king in his speech at the opening of the chambers to-day said:—'I hasten to ask the co-operation of the chambers to enable me to carry out the naional duties imposed upon me. These duties are unusually serious, but the sentiments of the nation are proportionately lofty. The relations of Greece with the foreign powers are friendly. I have to express my gratitude to the countries I have visited where arbitrament has given to Greece a frontier strengthening and extended her boundaries. The execution of the decision of the powers imposes up n us action, the regulation of which will chiefly engage your deliberations. The government has already made extensive military and naval preparations, for which loans have been contracted, and which the chambers will be asked to ratify. The nation has undertaken heavy obligations. The army will not be disbanded until the establishment of a new order of things in the territory awarded to Greece. I am firmly resolved to effect as speed ily as possible that for which I have prepared. I rely upon your co-operation as faithful exponents of the national will. Such a work will be
